ABOUT US

Established in 2014, Whitelion is dedicated to steadfast growth through constant innovation and regular creation of new solutions to stay ahead. Gadgets like motion sensors and TV sensors to enhance its comprehensive Home Automation solutions with a vision to become India's Number one home automation brand in the realm of Smart Homes.

HOME AUTOMATION INTO SETS

Upgrade your space with Whitelion's Posh, Quartz and Mocha Series Smart Switches, redefining convenience with their splash-proof and water resistant design for bathrooms, kitchens, and wet areas. The master button simplifies your exit—power down all switches with a single touch. No major renovations needed; our retrofit smart switches seamlessly integrate with existing wiring for quick installation. Experience added versatility with two-way functionality. Whitelion enhances the home experience by discreetly extending remote control with TV sensors and intuitively managing lights through motion sensors, adding a comforting touch that makes you feel truly at home.

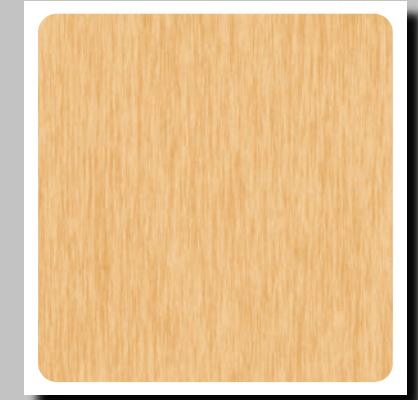

MOCHA SERIES

Smart Ultra Luxury / Customizable

Uncover opulence within the minutiae. Tailor and individualize these switches to align with your distinctive style. Immerse yourself in the forefront of home automation as switch icons seamlessly meld with your walls. Unleash the boundless expanse of your imagination.

MODULAR SIZE

Our Smart Switches offer modular sizes and compatibility with plates from various industry leaders.

SHOCK PROOF

The piezo-electric surface ensures a shock-proof experience, allowing use with wet hands or cloth.

TWO WAY PROVISION

Two-way provision of usage enhances flexibility in operation.

MASTER CONTROL

Our Smart Switch Panel includes a Master Control switch for simultaneous control of all switches.

FEATURES

RETRO FIT

Easy installation in existing wiring—an absolutely retro fit solution.

WATER RESISTANT

Water-resistant Smart Switches that makes splashes of water harmless.

HEAVY LOAD

Designed for heavy-load home appliances, it increases wattage capacity for switches.

DUAL LIGHT INDICATION

Dual light indication simplifies understanding of the switch's on or off mode.

ACCESSORIES

REMOTE

Recreate your space effortlessly with Remote Control Accessories your key to commanding fans, lighting, and more with just a touch! Upgrade your old fan to the world of remote control convenience. Elevate your surroundings with ease.

WIFI CHIP

Enhance your switches with our budget-friendly Whitelion WiFi chip! Control lights, fans, and appliances effortlessly through the Whitelion app on your smartphone. Sync with voice-controlled assistants like Amazon Alexa and Google Home for hands-free Operations.

HIGH LOAD DEVICE

Bid farewell to clunky switches for your high-load devices like ACs, geysers, etc. effortlessly. Simply attach them to the back of any Whitelion's smart switch, and voilà! Your space transforms into a hub of intelligent control for all your high-powered essentials. Upgrade to convenience, upgrade to Whitelion!

MOTION SENSORS

Motion Sensors detect the presence of any person on the radar and turn on/off the respective lights without the need for switches. Useful for bathrooms, passages, garages, parking areas, godowns, etc.

APPLICATION
ACCESS

EASY TO OPERATE

Whitelion Home Automation comes with flexible modes of operations such as mobile app, voice operated and remote controlled.

VOICE
OPERATED

TV SENSORS

TV Sensors are used for "extending" the infrared remote control functionality of devices without displaying them out in the open. You can hide your set-top box and still continue to use it normally without spoiling the great look of your TV.
